

AFFILIATED EYE SURGEONS

TO: PATIENTS OF AFFILIATED EYE SURGEONS

An eye examination consists of two (2) separate parts:

1) The **MEDICAL EYE EXAMINATION.**

The Medical Eye Examination determines the health of your eyes. It involves the detection and treatment of eye diseases such as glaucoma, cataracts, retinal diseases, etc.

The **Medical Eye Examination** should be covered by your insurance company.

2) The **REFRACTION.**

The Refraction is a separate examination to determine the need for glasses or to make a change in an existing glasses prescription. It is an essential part of an eye examination, but it is considered a **non-covered** service by Medicare and some insurances; thus, it becomes the responsibility of the patient to pay for the refraction portion of the examination.

Our office fee for a **Refraction is \$40.00** and this fee is collected at the time of your visit in addition to any co-payments.

Please indicate below whether or not you want to have the refraction:

- YES I want the **Refraction**
- YES I want the **Refraction** if the Doctor feels it is necessary
- NO I do not want the **Refraction**

Patient Signature (Parent if Minor)
